

SENTI FIORI

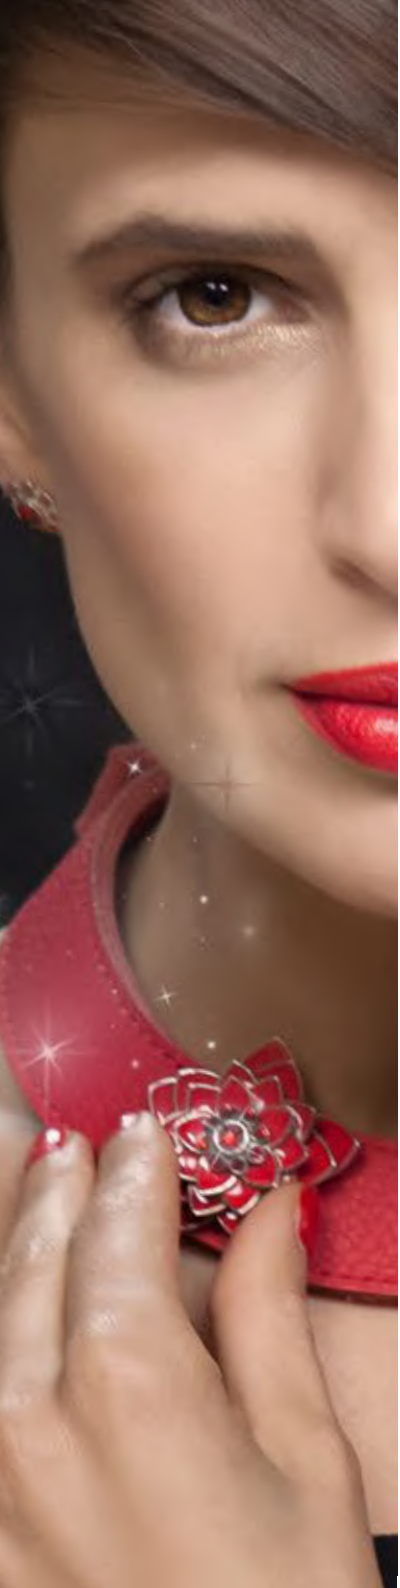

The Senti Fiori lotus set comes with a leather case, which is made in the UK and holds 9 pieces: 8 are made of 925 sterling silver that are handcrafted in the UK and hallmarked and 1 leather choker is made in Germany with fine German leather.

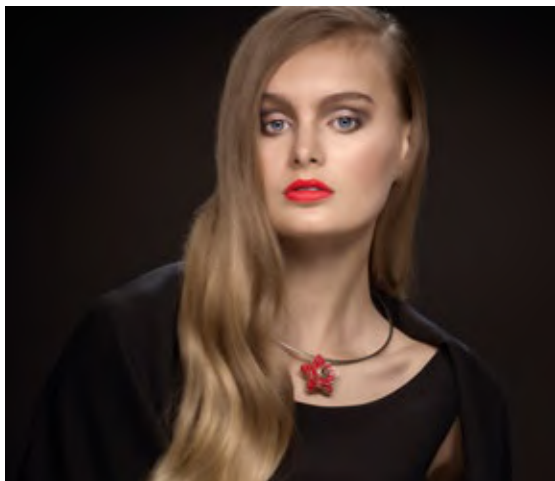

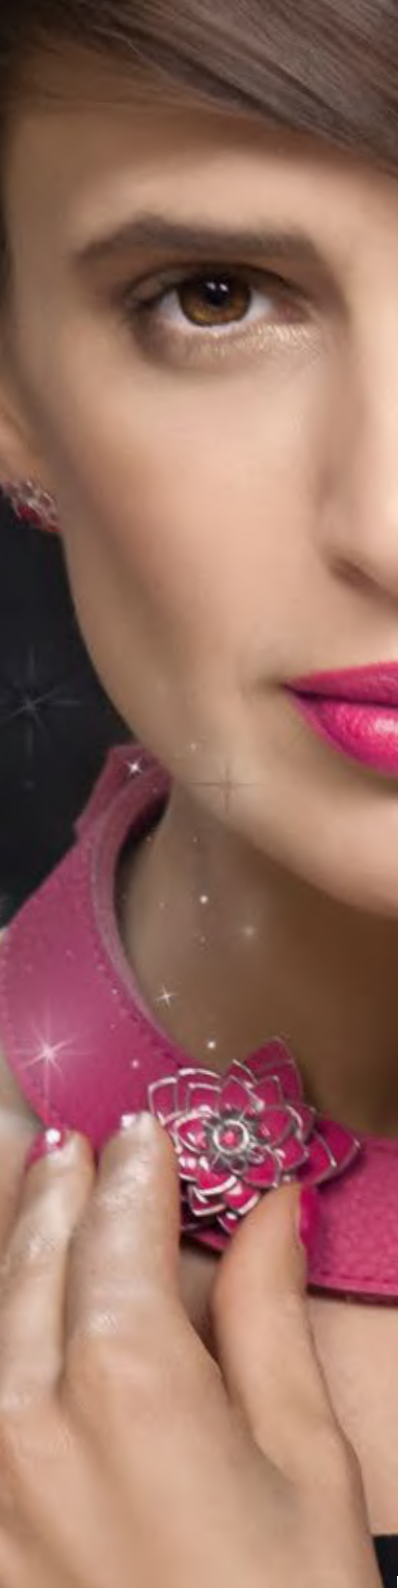

The timeless and ageless lotus flower jewellery is multifunctional. It can be worn in 5 ways.

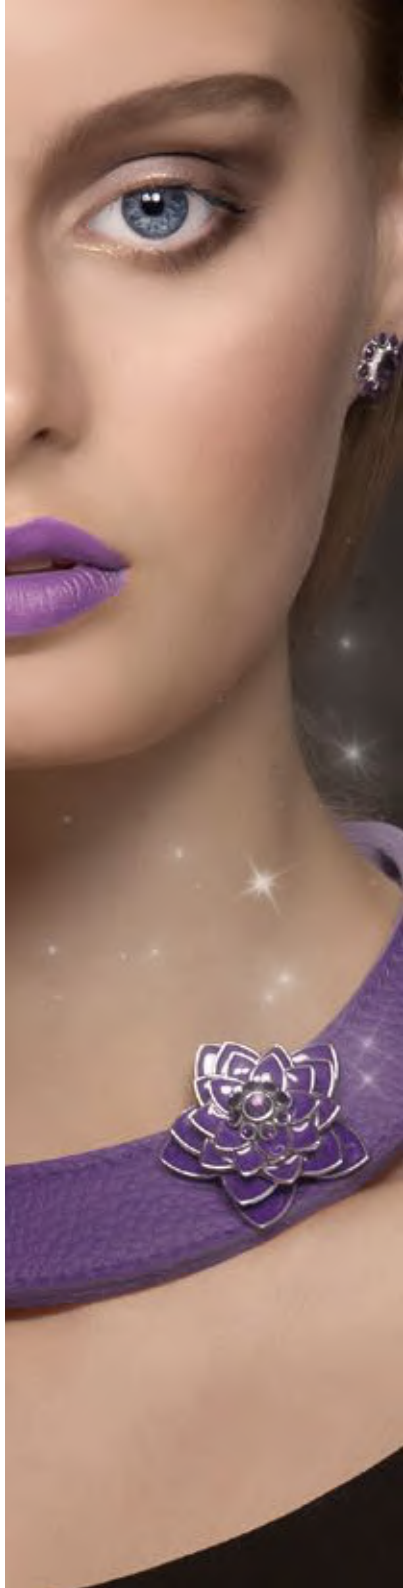

As a pendant on a wire choker. As a brooch or clip and slid onto a fine wide collar choker.

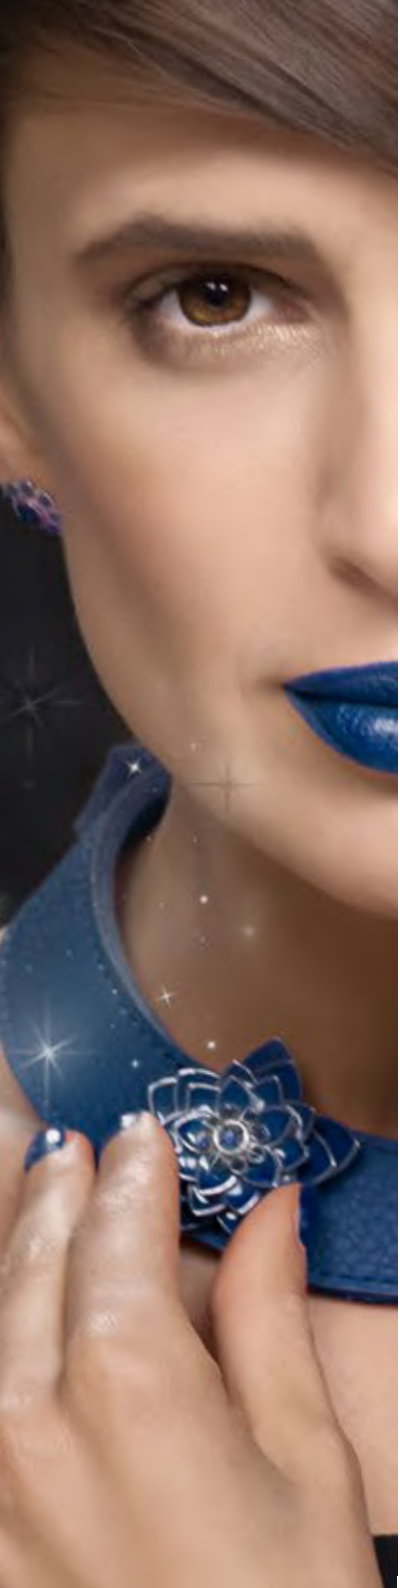

Besides wearing it as a pendant on a wire choker and as a brooch or clip on a wide silver choker, the versatile flower can also be worn as a brooch or clip on a wide leather choker, in three places: left, middle and right.
